The boys of Cupertino just released the 'final' version of the beta versions for all users who want to install it on the Mac. In the keynote last Tuesday did not show anything about these new versions of software and subsequently launched the Golden Master for iOS users. This update is recommended for all users AirPlay 2 for iTunes 12.8: Control your home audio system and AirPlay 2-enabled speakers throughout your house. Download MacOS High Sierra 10.13.6 2017 In the keynote last Tuesday did not show anything about these new versions of software and subsequently launched the Golden Master for iOS users. Today we have available this GM version for macOS High Sierra 10.13.6 Actually the changes regarding the previous beta version are not noticeable but it is clear that in these GM do not add changes, you simply look for stability and security against the release of the final version that will arrive in a few days, in addition it must be said that this GM version and the final version that we will have next 25 of this month are the same.
